

SECRETARY BAKER OPENS CONVENTION

Lauds President Wilson's Administration and Acts of Democratic Congress.

PRaises FOREIGN POLICY

Gives Resume of Constructive Legislation Accomplished Under Administration of James M. Cox and Asks for His Return.

Columbus, June 1.—Newton D. Baker, secretary of war, as temporary chairman of the Democratic state convention, delivered the keynote address at the opening session.

In prefacing his remarks on state issues, Mr. Baker paid tribute to the administration of President Wilson and to the legislation accomplished by the Democratic congress. He paid particular attention to the enactment of the federal reserve bank law, the Underwood tariff revision measure, the rural credits bill and the preparedness measures.

Praises Course of President.

In reference to President Wilson's course regarding the trouble in Mexico and the war in Europe, he said: "His has been the one sane and serene spirit which will redeem this age; and when the election comes it will be found that the people of America, whatever their sympathies in the European struggle, realize that the one indispensable exponent of the mind, the friendliness and the ideals of America in the re-making of the old order in the Old World, is the finest type produced in this age by the new order in the New World—Woodrow Wilson."

On the subject of state issues he spoke in part as follows:

I must say a brief word to you on the subject of our state issues in Ohio. The adoption in 1912 of two more amendments to our constitution meant a popular demand for a redress of old abuses. The adoption of these amendments was in large part due to their advocacy by the Democratic candidate for governor. Before the mind of the people was known upon the subjects they presented, he fearlessly expounded the cause of progress and debated the amendments throughout the state. As a consequence, the Democratic platform upon which he was nominated, laid out a program of progressive legislation, wider and more varied than had ever been adopted in any political convention in this state. The newly elected governor took his commission to office as a command from the people, and the legislature which met during his term made a record under his leadership which placed Ohio in the advance column of progressive commonwealths. The laws passed were too numerous to admit of individual mention in the time at my disposal here, but farmer and merchant, industrial worker and captain of industry were all caught up in the network of helpful and remedial provisions; rural education was brought into harmony with modern conditions of living; childhood, motherhood and widowhood were protected; court procedures were simplified; municipal governments given elasticity, public utilities brought under salutary control, and the efficiency of the administration by the state of its agencies for the care of the dependent and delinquent classes greatly increased; the liquor traffic, which had been a constant source of agitation, was brought under wise and reasonable control by laws which carried out the spirit and the purpose of the constitutional amendment dealing with that subject, and some start was made in the reorganization of the taxation machinery of the state. Performances so extensive as these necessarily united for the moment opposition groups into a temporary majority against the man who had done all this, and, as a consequence, we have had the present interregnum characterized by the feebleness and uncertainty which always attend an administration brought into power by such causes. By the time has come when other things must be done in Ohio. The program already begun must be carried forward, and very especial attention must be given to the condition of the municipalities, the counties and the townships of the state from a financial point of view.

Believe in Home Rule.

We believe in home rule. From the very foundation of our party its cardinal doctrine has been local self-government; that each unit of population should be given power to determine the affairs that affect that unit, and we have believed this not merely because of our confidence in the ability of people to govern themselves better than anybody else could govern them, but because we have believed that the practice of the art of self-government was in itself strengthening and educational, and that we build better for the future when we look ahead and see as our ideal a citizenship, wise through training, strong and sane through bearing responsibility. The next governor and legislature of Ohio must deal with this question. By constitutional amendment the cities of Ohio have been freed as to their form of government. They must now be freed as to the substance of government and the laws by which this is accomplished must be equal laws giving freedom to the cities without taking it from the rural districts; giving our municipalities the power to determine affairs that concern them alone, but without imposing burdens upon other cities; making the municipal unit. The task demands wisdom and fidelity and courage. I ask those of you who believe this to be a task of paramount importance whether the people of Ohio can look to its performance with better expectation to the present state administration or to a return of the administration of James M. Cox?

As a people we have been much bound by party names and party traditions, sometimes to our detriment and hindrance. A candid mind is obliged to admit that any great party in its history shows moments of departure from fidelity to its central principles, and it is not always that a party man, unless he be overcome by party enthusiasm, can claim that the welfare of his party is bound up with the welfare of the state, but today in state and nation, under leadership which seems providential, the interests of the people of Ohio, of the people of the United States, perhaps even the welfare of the people of the world, is inextricably associated with a continuance of the Democratic party in power.

WOMEN PARADE IN RAIN FOR SUFFRAGE

Ask National Convention to Incorporate Equal Suffrage Plank in Platform.

Chicago, June 8.—Four thousand women marched miles through a driving rain in a plea to the Republican national convention to incorporate a plank for equal suffrage in the party's platform.

Thousands of delegates and visitors from hotel windows watched the women brave the pelting storm that blew off the lake upon the intrepid paraders as they marched by platoons up Michigan-av. to the Coliseum. Hundreds of the brave lined the sidewalks, warmly clad in overcoats and holding umbrellas, as the women, mostly clad in light uniform gowns and exposed to the rain, passed by.

"If they've got nerve enough to march in this rain I've got nerve enough to stand out in it and watch them," said one delegate, a man from Ohio.

When the women reached the Coliseum they were denied admission. Safe in the building, the Republican committee on resolutions was hearing arguments. Mrs. Carrie Chapman Catt and her colleagues were speaking for the suffragists. Suddenly the beating of drums and the blare of trombones smote the ears of the distinguished and satisfied statesmen. The women were filling in, sweeping past the guards.

They filled the delegates' seats and the main galleries, as well as the gallery back of the platform where the committee was holding its meeting. The committee tried to look unimpressed, but did not succeed very well. The question of a suffrage plank is still undecided.

Besides Mrs. Catt, the committee was addressed by Mrs. Abbe Krebs of California, Mrs. Ellis Meredith Clement of Colorado, Mrs. Wilbur Trout of Illinois and Mrs. Frank Roessing of Pennsylvania.

The Congressional union was represented by Miss Anne Martin of Nevada, Mrs. G. Harriet Stanton Blatch of New York and Mrs. Sarah Bard Field. Mrs. Arthur Dodge of New York, president of the Association Opposed to Woman Suffrage, had charge of the opposition. Miss Alice Hall Chittenden of New York and Miss Minnie Bronson of Iowa also spoke against the proposed plank.

WOMAN'S COLLEGE IS UP TO DATE

Western, at Oxford, Is First to Purchase a Tractor for Use on Its Farm.

Special Columbus Correspondent.

Columbus, June 8.—There are no men students at Western college, Oxford, but that institution has taken the lead of all the agricultural colleges of the state in being the first college of Ohio to possess a farm tractor. In the future it will do its plowing and hauling with the aid of a 10-horsepower machine. Dr. W. W. Boyd, president, has just received word from the factory at Columbus that the farm tractor is to arrive at the school in time for commencement exercises, Wednesday, June 14. Although Western college is devoted to arts, it owns a farm of 350 acres, which supplies a large proportion of the foodstuffs for the college table as well as certain revenues for the school. It is in charge of a farm superintendent. The college expects to add two or three automobiles to the equipment to assist in the receipt and delivery of mail, in hauling packages and in carrying passengers. The tractor, manned by one man, is supposed to do the work of six horses and two men and it was acquired for economic rather than educational reasons.

Receives Large Fees.

The state treasury was enriched to the extent of \$28,995, representing the fees charged by the state for the privilege of increasing capital stock. Three concerns made very notable additions to their authorized capital stock. The Andrews Belt Co. of Columbus, only recently incorporated, increased its capital stock from \$5,000 to \$3,000,000. On that the company paid in a fee of \$2,995. The Miller Rubber Co. of Akron increased its capital stock from \$2,000,000 to \$20,000,000. On this the fee collected by the state was \$18,000. The Eagle White Lead Co. of Cincinnati increased its capital stock from \$2,000,000 to \$10,000,000. From this company the state collected a fee of \$8,000.

Two After the Office.

Edward H. Howard of Columbus, former assistant secretary of state and former member of the state senate, has entered as a candidate for the Republican nomination for the state senate. Former Representative Hiram S. Bronson of Franklin county, just recovering from a critical illness, is a candidate for the same nomination. He is author of the Bronson primary election law, which paved the way for the present primary election system.

Granted a Divorce.

A divorce was granted to Florence Sells Hardesty, daughter of the late well-known showman, Ephraim Sells, from her husband, Thomas D. Hardesty, on the ground of failure to provide. They were married in New York in 1905 and have no children. Each party relinquished interest in the property of the other and she was restored to her maiden name of Florence Sells Hardesty appeared only by his attorney.

Large Number of Applicants.

In the state bar examination in progress here 265 applicants for admission to the bar are taking the test. They are given 100 questions, covering 18 subjects, and must make 75 per cent on the whole to secure a passing grade. Six of the class are women.

Fourteen Graduates.

Fourteen pupils of the Ohio Institution for the Education of the Deaf will be graduated at the annual commencement. Dr. H. G. Williams will deliver the annual address and C. C. Phibbrick, chairman of the state administration board, will present the diplomas.

May Have Opposition.

Congressman Clement Brumbaugh filed a certificate entering as a candidate for the Democratic nomination for re-election to congress. He has no opposition yet, but Clark Doughty and Robert J. Beatty are said to be contemplating entering against him.

The United Doctors Specialist, licensed by the State of Ohio for the treatment of all diseases including

deformities, nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice, free, making no charge whatever, except the actual cost of treatment. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

The United Doctors are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, rheumatism, sciatica, tapeworm, leg ulcers, weak lungs and those afflicted with long-standing, deep-seated chronic diseases, that have baffled the skill of the family physicians, should not fail to call. Deafness often has been cured in sixty days. According to their system no more operations for appendicitis, gall stones, tumors, goiter, piles, etc., as all cases accepted will be treated without operation or hypodermic injection as they were among the first in America to earn the name of "Bloodless Surgeons" by doing away with the knife with blood and with all pain in the successful treatment of these dangerous diseases.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

Worn-out and run-down men or women, no matter what your ailment may be, call, it costs you nothing. Remember, this free offer is for this visit only.
